11. Native American Preference Policy

Applicants may assert a claim for tribal preference on the *Contractor/Consultant Qualifications Form* and provide supporting documentation.

Indian preference may be used in the purchase of goods or services. Indian preference is preferential treatment in securing goods and services from Alaska Natives and Indians, or Indian Owned Enterprises, as provided in Public Law 93-638, Section 7(b) Indian Self Determination and Education Assistance Act, January 1975.

All awarding contracts or subcontracts for supplies, services, labor, or materials in the amount of \$35,000 or more, where the majority of the work on the contract or subcontract will occur on lands subject to the jurisdiction of the Squaxin Island Tribe, shall give preference to Indian Owned Enterprises in the award of such contracts or subcontracts.

Unless federal law or the source of funds requires a different consideration, an Indian Owned Enterprise shall be considered among all preference applicants.

Preference will apply to bids that are within the percentages below of the lowest bid submitted by a qualified bidder not claiming preference, provided that the successful Indian Owned Enterprise agrees to perform the work at the cost of the lowest bid submitted by a qualified bidder not claiming preference.

Bid Preference Table:

Where the lowest responsive bid is:	Bid preference amount:
Less than \$100,000	10%
At least \$100,000 but less than \$500,000	5%
At least \$500,000 but less than \$1,000,000	3%
\$1,000,000 or more	1%

In circumstances where issues in addition to cost form a part of the decision-making, for example, design, experience, and/or timeliness, preference will be considered in the cost element only. In such circumstances, the bid document will identify the relevant elements and the scoring methodology to be used.
