The Tribe's Higher Education Coordinator will compile all relevant student information to present to the Squaxin Island Higher Education Committee. The Committee will meet quarterly to review student application files and awards.

Upon finding that the applicant is a full time student and is eligible for financial assistance through the Tribe's Higher Education Program, the Higher Education Committee shall determine the amount of the award, which when combined with other resources, shall not exceed the applicant's educational budget as determined by the College Financial Aid Officer. The budget is composed of the following categories of expenses:

2. Fees and supplies;
3. Room and board;
4. Allowable educational expenses.

Upon finding the applicant is a part time student (less than 12 credits) and is eligible for financial assistance through the Tribe's Higher Education Program, the Higher Education Committee can only consider the costs of tuition, fees, books and supplies in determining the amount to be awarded to the student. Students will be funded for a total of up to five (5) years to complete educational goals.

Students determined to be eligible for financial assistance will receive a copy of their Award Notification at the mailing address indicated on the application form.

Awards will be determined annually but are issued at the beginning of each term through the college Financial Aid Office. The college will be responsible for dispersing the funds to the students upon verification of enrollment.*

- the student will be required to sign a compliance form with the education office.
- the student must submit all receipts to the education office.
- funds may be used for allowable educational expenses only.

Should the student not comply with the above provisions, the student will be expected to refund the tribe in full before being considered for future funding.

*Please note that if the student's address changes, the education office needs to be notified in writing.

*Awards are made based on the availability of funds and review of student funding priority, student unmet need as determined by the school and student/family contribution to their education, consideration may be given to students whom have higher educational loan obligation in their 1st and/or 2nd year.
